1	Dissolved Pesticide Mass Discharge in a Semi-Arid Dryland Agricultural Watershed at the Field and Basin Scale	A.N. Simmons and R.M. King, Washington State University; et al.
2	A Geologic Source of Arsenic in Washington State Ground Water: A Literature Review	Jennifer Parsons and Richelle Allen-King, Washington State University
3	Rain-on-Snow and Nitrate Transport	Stephanie McAfee and Robert Edmonds, University of Washington
4	Nitrate Distributions in a Portion of the Abbotsford-Sumas Aquifer, Northwest Washington	Leslie Braverman and Robert Mitchell, Western Washington University
5	Predicting the Heterogeneous Distribution of Aquifer Permeability Through Lithofacies Mapping Method	Kathryn Taylor and Dana Divine, et al., Washington State University
6	Groundwater Modeling of the Tacoma Landfill	Mieke Teitge; Calvin Taylor, Tacoma Public Works; Barry Goldstein, University of Puget Sound
7	Evaluation of the Interpretation of Groundwater Elevations and Landslide Slip Surfaces through the Use of Ground Penetrating Radar	Michael Hutchinson and Bernie Housen, Western Washington University
8	Application of LIDAR Terrain Mapping to Flood-Hazard Mapping	Mark Mastin and Dave Kresch, U.S. Geological Survey
9	Quantifying Thermal Variations in Lower Granite Reservoir Using Satellites and 3-D CFD	Christopher Cook, George He, et al., Pacific Northwest National Laboratory
10	Ground-Water Flooding Related to Local Washington Geology	Myrtle Jones and Joseph Jones, et al., U.S. Geological Survey
11	The Hydrogeology of Northern Lummi Island, Washington	Bill Sullivan and Robert Mitchell, Western Washington University
12	Clover Creek Watershed: Using indicators to Monitor the Environmental Health	Darren Alkire and Courtney Berner, et al., Pacific Lutheran University
13	Surface-Water/Ground-Water Interactions Along the Lower Dungeness River and Vertical Hydraulic Conductivity of Streambed Sediments, Clallam County, Washington, September 1999-July 2001	Bill Simonds, U.S. Geological Survey; Kirk Sinclair, WA Dept. of Ecology

4th Symposium on the Hydrogeology of Washington State

14	Preliminary Numerical Modeling of Groundwater Flow on the Swinomish Indian Reservation	Karen Mitchell, Swinomish Office of Planning and Community Development
15	Numerical Simulation of the Ground-Water Flow System of the Colville River Watershed, Stevens County, Washington	Claire Longpre and Matt Ely, U.S. Geological Survey
16	Characterization of Geomorphology and Hyporheic Conditions of Spring Chinook Salmon Spawning Habitat Within the Yakima River Basin	A. Brooke Asbury, Carey Gazis, and Lisa Ely, Central Washington University
17	An Overview of the System Assessment Capability: Inventory and Environmental Transport Simulation	W.E. Nichols and D.W. Engel, et al., Pacific Northwest National Laboratory
18	An Overview of the System Assessment Capability: Software Design and Implementation	C.T. Kincaid and R.W. Bryce, et al., Pacific Northwest National Laboratory
19	System Assessment Capability: Impacts and Uncertainty Analysis	P.W. Eslinger and C.A. Brandt, et al., Pacific Northwest National Laboratory
20	A Systematic Approach for Developing Conceptual Models of Contaminant Transport at the Hanford Site	G.V. Last and V.J. Rohay, et al., Pacific Northwest National Laboratory
21	Multi-Source Influence on Vertical Contaminant Distribution and Transport in a Thick Unconfined Aquifer Beneath the Hanford Site, Richland, Washington	Bruce Williams and Mary Hartman, Pacific Northwest National Laboratory
22	Hanford Tank Farm Vadose Zone Characterization Process and Results	P.D. Henwood, and R.G. McCain, Stoller Corp., J.M. Silko, U.S. Dept. of Energy
23	Evaluating Potential Sources for Tritium in Groundwater at the 100-K Area, Hanford Site, Washington	R.E. Peterson and F.A. Spane, et al., Pacific Northwest National Laboratory
24	A Comparison of Actual Evapotranspiration Estimates to a Soil Moisture Budget and Plant Growth	Erick Miller and Peter Bannister, Aspect Consulting, LLC; et al.
25	Hydrologically Separate Subbasins of the Palouse Aquifers	Dennis Owsley, University of Idaho
26	Hydrologic Controls and Forest Land Management Implications of Deep-Seated Landslides: Examples from Southwest Washington	Wendy Gerstel, WA Dept. of Natural Resources; Thomas C. Badger, WA Dept. of Transportation

4th Symposium on the Hydrogeology of Washington State All The Hydrogeology of Washington State Comparison on the Hydrogeology of Washington State Comparison of Hydrogeology of Washington State Comparison of
